SUMMARY

Junior front-end developer with strong foundation in software engineering principles, including object-oriented programming, data structures, and algorithms. I am a skilled front-end developer with hands-on experience in HTML, CSS, JavaScript, and modern frameworks like React and Tailwind CSS. My projects include a comprehensive anime database, a real estate portal, and an e-commerce website, showcasing my ability to build functional and user-friendly web applications. I am a quick learner, a collaborative team player, and I am eager to apply my skills and passion for web development to a challenging and rewarding role.

PROJECTS

SuiteHome - website (2024)
- SuiteHome is a real estate portal website built using vanilla JavaScript, HTML, and CSS. It offers users a comprehensive platform to buy, rent, and sell properties.

Time Zone - website (2024)
- Time Zone is an e-commerce website built using React. It offers a wide range of products and provides a seamless online shopping experience.

Basket-e-commerce - website (2025)
- Developed a responsive e-commerce web application using React and Redux toolkit for state management. Implemented key features including product browsing with advanced filtering, a dynamic shopping cart, and a full user authentication and checkout system.

SKILLS

- HTML
- CSS
- JavaScript
- React JS
- React Router
- Redux toolkit
- UI/UX
- Bootstrap
- Tailwind css
- Material UI
- Git/Github

LANGUAGES

- English
- Arabic

EDUCATION

Information Technology, Misr University for Science & Technology
(OOP - Data structure – Algorithm – Software Engineering)/ graduated 2024/ GPA: 3.21

CERTIFICATES

WEB DEVELOPMENT CHALLENGER TRACK Jul 2022 - Aug 2022
- Completed an intensive course on front-end development technologies at Udacity

Web Masters Front-End Development Training Program Jun 2025 - Aug 2025
- Completed this training program by implementing real-world applications in front-end technologies, ensuring hands-on experience and job-market readiness.
