PROFESSIONAL EXPERIENCE

Front-End Developer Trainee | Web Masters Egypt | April 2024 – August 2024

- Completed an intensive 5-month, project-based front-end development program building production-ready web applications using HTML5, CSS3, and JavaScript.
- Delivered responsive, accessible UI components across multiple projects:
 - * Integrated RESTful APIs using pure JavaScript, reducing redundant network calls and improving data-fetching efficiency across application features.
 - * Built reusable component libraries with Flowbite and Tailwind CSS, accelerating feature delivery and ensuring design consistency across all views.
- Applied industry best practices in Git version control, component architecture, and web performance optimization throughout all projects.
- Consistently delivered projects on time in an agile environment, demonstrating strong time management and cross-functional collaboration skills.

Frontend Web Developer | Information Technology Institute (ITI) Egypt | August 2024 – September 2024

- Developed and maintained responsive web applications using React.js, React Query and Bootstrap ensuring seamless user experiences across all devices and browsers.
- Implemented complex interactive UI features and components with a focus on performance and compatibility:
 - * Ensured cross-browser compatibility and optimal rendering by debugging layout inconsistencies across all browsers.
 - * Delivered the final capstone project ahead of schedule, demonstrating strong execution speed and technical problem-solving under deadlines.

PROJECTS

Learnova – E-Learning Platform | Next.js, TypeScript, React.js, Tailwind CSS, Shadcn UI, Zustand 2026

- Built a frontend e-learning platform using Next.js 15 App Router with strict separation between server-side data fetching and client-side state management via Zustand.
- Implemented cookie-based authentication, an AppProvider pattern to bridge server data to client components, and a scalable architecture covering courses, dashboard, checkout, and quiz pages.
- Configured Jest for Next.js 15+ with ESM-only packages and async cookie mocks, achieving 24 passing tests covering course filtering logic.
- Adopted Conventional Commits and maintained production-level code quality throughout — serving as a showcase of Next.js, TypeScript, and modern front-end best practices.

Personal Portfolio | React.js, TypeScript, Tailwind CSS, Shadcn UI 2026

- Built and deployed a fully responsive personal portfolio showcasing projects, skills, and experience; live at ali-hossam-portfolio.netlify.app.
- Achieved a 98/100 Lighthouse performance score through code splitting, lazy loading, and image optimization techniques.

API-Integrated Web Application | React.js, Javascript, Tailwind CSS, Material UI 2024 - 2025

- Developed a data-driven web application integrating RESTful APIs with React Query for efficient server-state management, caching, and background synchronization.
- Implemented accessible, reusable UI components maintaining design consistency and responsive behavior across all screen sizes.

EDUCATION

Misr University for Science and Technology (MUST) — Giza, Egypt

Bachelor's Degree in Computer Science, Information Technology | 2024

Relevant coursework: Data Structures, Algorithms, Web Development, Database Systems, Software Engineering.

SKILLS & INTERESTS

Technical: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Flowbite, Material UI, Shadcn UI, Zustand, Redux, React Query, Jest, Git, GitHub, REST APIs, Vite, Webpack, Responsive Design, Cross-Browser Compatibility

Languages: Native Arabic speaker, Proficient in English

Interests: Open-source contribution, UI/UX design trends, React ecosystem, developer productivity tools, AI-assisted development workflows
