

Ali Hossam Mohamed

Front-End Developer

✉ alihossam916@gmail.com ☎ 01202775920 📍 Egypt [LinkedIn](#) - [GitHub](#) - [Portfolio](#)

SUMMARY

Junior front-end developer with solid knowledge of object-oriented programming, data structures, and algorithms, and hands-on experience in HTML, CSS, JavaScript, and React. Built responsive web apps including an anime database, real estate portal, and e-commerce sites using React, Tailwind CSS, and Redux Toolkit. Fast learner and team player, eager to contribute to modern front-end projects.

EXPERIENCE

Front-End Development Trainee (Remote) | Information Technology Institute (ITI)

August 2024 - September 2024

- Completed a one-month remote front-end program covering HTML, CSS, JavaScript, and React.js through daily practical tasks.
- Collaborated in a team to build the Time Zone e-commerce web app using React.js, Bootstrap, React Router, and Redux Toolkit, leading the responsive landing page implementation.

PROJECTS

SuiteHome - web application(2024)

- Real estate portal built with HTML, CSS, and vanilla JavaScript, allowing users to browse, buy, rent, and sell properties.

Time Zone - web application (2024)

- E-commerce web application built with React providing a smooth shopping experience and modern UI.

Basket-e-commerce - web application (2025)

- Responsive React + Redux Toolkit app with product filtering, dynamic cart, and user authentication/checkout features

Portfolio - web application (2026)

- Personal portfolio built with React, TypeScript, shadcn/ui, and Tailwind CSS showcasing projects and skills in a responsive, accessible UI with reusable components and consistent theming.

SKILLS

HTML, CSS, JavaScript, TypeScript, React, React Router, Redux Toolkit, Bootstrap, Tailwind CSS, Material UI, Shadcn UI, UI/UX, Git/GitHub
